**Word of the Week**

**stentorian** (sten-TOHR-e-un) (adj): very loud and very powerful in sound

In context: Dr. Witherspoon embarrassed us all when, as the first act of The Nutcracker began, he announced in a stentorian voice, “I think Marge’s son has a speaking part.” At the intermission, he tried to start “the wave” and was then asked to leave.

News from the Senior Tutor Re: Medical Makeup Exams
1) If you think you may be unable for medical reasons to take an exam on schedule, please discuss this with Glenn as early as possible. There are different options available, some of which may be suited to your health and course work better than others.
2) Should you find that the flu or another debilitating medical problem strikes right before an exam, don't despair. Go to UHS right away, explain that you are sick and that you are sched-uled to take an exam within the next 24 hours.
3) In order to petition the Administrative Board for a medical makeup exam, you must be seen by a UHS physician or nurse practitioner within the 24 hour period before the exam. Re-member that UHS is very busy during the month of January, so don't wait until a few minutes or even an hour before an exam to seek relief for your symptoms.
