**Halloween facts**

Halloween is traditionally also known as "Nut-Crack Night" because apples and nuts were traditional Halloween foods readily available at this time of year. "Nut-Crack Night" is also a traditional children's game played around Halloween in which players must use their teeth to catch apples that are floating in water, hanging from a string, or balanced on a heap of flour. In the 19th century, Halloween was commonly associated with love divinations. Young people would lay two nuts or apple pips side-by-side in a fire and name them after themselves and their significant others and see whether or not they exploded. A loud pop signified a either a good match or a bad match, where people where from, in which local traditions interpreted pops differently.

In Memorium: Peter Cai

By now, many of you have heard about the untimely and tragic death of one of our dearly beloved friend, Peter Cai. After completing the river run on Saturday, Peter collapsed and after much effort to resuscitate him, he passed away at Mt. Auburn Hospital a little before noon of heart failure. A junior who lived in Adams House, Peter had been a committed member of Chinatown ESL as well as AAA since his freshman year, when he served as a freshman representative, and later as a Public Relations Co-Chair. Even when he completed his term on board, we could always turn to him for help with our events, and he was always willing to pitch in whenever we needed, with anything that he could do. He was truly a stand-up guy--genuine, earnest, kind, and always willing to give so much of himself to the many communities of which he was a part. He was a good soul who touched the lives of everyone he met, and those of us who called him a friend know how lucky we are to have had that privilege. We know that this is a difficult time for everyone, as we find ourselves grappling with what to do and how to grieve when such a sudden loss occurs.
