Imagination is the one weapon in the war against reality. — Jules de Gautier

Get In the Mood...

Ronald Reagan led the country into an age of greed and excess. Daisy Duke was a goddess and the General Lee jumped 20 cars in a single bound. The Smurfs, Bugs Bunny and Scooby Doo were on every Saturday morning. “School House Rock” was an English teacher’s dream (“Conjunction junction, what’s your function?”). G.I. Joe believed that knowing was half the battle and the Autobots battled the Decepticons every afternoon after school. The Care Bears cared and Strawberry Shortcake was more than a dessert. Michael Jackson looked human. Madonna was a virgin. Prince wasn’t a symbol. MTV actually played videos. Mike Tyson pummeled everybody except Robin Gibin, who took him not to the Head of the Class but to the cleaners. Break dancing was born. Jams, parachute pants, acid washed-jeans were stylish. Orange juice wasn’t just for breakfast anymore.

It's Not Easy Being Green
The Green Cup Committee is pleased to announce Pfoho as the winner of its energy conservation competition for September, with Leverett coming in third place. Pfoho will rewarded with a Ben and Jerry's Ice Cream Study Break for making the greatest reduction in its use of water, electricity and heat compared to last year. Unfortunately, electricity use went up for ELEVEN houses! So keep this in mind next time you leave your computer on overnight: it takes a tree over one year to consume the amount of carbon dioxide emitted from powering your computer for less than one week. Studies have shown that turning your computer off when not in use for long periods of time will not damage your hardware and may even increase your computer's lifetime! For more conservation tips or info about Green Cup, please contact wliu@fas or jhsu@fas.
